We have constructed unique realm in medical appliances for hospital. In Year of 2018 Vision healthcare has been converted to private limited company from Proprietor Company. VISION MEDINST CARE PVT.LTD

Aerogen®

Pioneering Aerosol Drug Delivery

Features	Benefits
<i>Vibronic / Vibrating Mesh Technology based Drug Delivery System</i>	<i>Capable to generate uniform low speed aerosol particle <3 micron which is ideal for deep lung penetration for effective & efficient treatment</i>
<i>Compact, portable and noiseless operation</i>	<i>Easy to use & store and ideal for hospital / patient use</i>
<i>Quick and easy to setup for intermittent and continuous use</i>	<i>User friendly operation for short & long term aerosolization</i>
<i>Provision to refill medication without breaking the circuit</i>	<i>Avoids de-recruiting the lung while ventilation, thus, does not increase work of breathing</i>
<i>Capable to handle wider range of Aerosol Drugs (solutions, suspensions, proteins & Peptides)</i>	<i>DDS can be used for all recommended drugs, hence for users Its one system for wide application range</i>
<i>Technology does not generate any heat</i>	<i>Avoids any type of drug decomposition due to heat while aerosolization and hence does not reduce the medicinal property of drug while use</i>
<i>Technology does not add any flow with Aerosol</i>	<i>Does not affect TV delivery while ventilation and makes the system best suitable for paediatric / neonatal use</i>
<i>Vibronics aerosolizes all most entire drug (<0.1 ml residual for 3 ml delivery)</i>	<i>No drug wastage and smaller dose of drug can be administered specially in neonatology use</i>
<i>Suitable to mount the nebulizer unit at multiple locations</i>	<i>Increases the flexibility to use by connecting either at Y-piece, dry side of Humidifier, Inspiratory Limb of Ventilatory Ckt, with NIV mask, HFNC, with Ultra for spont. breathing pt etc..</i>
<i>High performance Aerosol Drug Delivery System; significantly more medication in half of the Time</i>	<i>High speed delivery i.e 6 times more medication with ultra & 4 times more medication in NIV;</i> <i>Improves patient response to treatment</i> <ul style="list-style-type: none"> <input type="checkbox"/> Reduction in the hospital admission rate by 32% <input type="checkbox"/> 85% patient achieves symptom control with one 2.5 mg Salbutamol dose <input type="checkbox"/> 75% lower drug use while nebulization <input type="checkbox"/> 30% higher discharge rate from Hospital
<i>Product is approved by US FDA and meets European CE standards Its also having over 100 design patents and awarded by multiple agencies like</i>	<i>High quality, highest standard reliable product for versatile aerosol use from neonatal to adult patient range</i>
